## Registration Guide

### Network Security Solutions

SonicWall offers an extensive technical training curriculum for Network Administrators, Security Experts and Partners who need to enhance their knowledge and maximize their investment in SonicWall products and security applications.

#### There are two major types of courses:

##### **Certified SonicWall Security Administrator (CSSA) courses**

CSSA courses are intended for networking professionals responsible for the daily operation of one or more security appliances.

##### **Certified SonicWall Security Professional (CSSP) courses**

CSSP courses are more advanced, and are intended for individuals that deploy, optimize, and troubleshoot all associated product features.

To view a course description or to register for an instructor-led class, click on one of the following course titles:

##### **CSSA courses**

###### ***Network Security Basic Administration***

This course provides students the required background, knowledge and hand-on experience to begin deploying, configuring, and troubleshooting SonicWall Network Security Appliances running SonicOS firmware.

###### ***Secure Mobile Access Basic Administration***

This course provides instruction on the administration and management of the SMA appliance to provide secure, anywhere access to applications and resources for employees, business partners and other users.

##### **CSSP courses**

###### ***Network Security Advanced Administration***

This course builds on the skills learned in the Network Security Basic Administration course and teaches the student the latest information on Application Control, Bandwidth Management, troubleshooting, advanced networking and more.

###### ***Secure Mobile Access Advanced Administration***

This course builds on the skills learned in the Secure Mobile Access Basic Administration course and teaches advanced features, troubleshooting, and deployment techniques.

# To register for a SonicWall instructor led training course:

1. Access one of the above course description pages
2. Scroll to the bottom of the page and click on schedule to find a class date that meets your needs
3. Click on Register Now
4. This will take you to the training partner's website:
  - If you have already purchased training and have received an email with an activation key, you must call the training partner to register for class
  - If you have not already purchased training, you can follow the partner's online registration process
5. If a local class is not shown, visit <http://training.SonicWall.com/> and click on Authorized Training Partners to find a local training partner

NOTE: Always check the local pricelist for the latest pricing information.

## Introduction to SonicWall partner training

Some courses are provided online as free e-learning courses. To start one of our e-learning courses, just click on one of the following course titles and begin:

- Global Management System Certification
- Email Security Certification

## Free e-learning classes

## Instructor-led courses

For more information, visit <http://training.SonicWall.com/> or email [training@SonicWall.com](mailto:training@SonicWall.com)

## Certifications

To earn the certification associated with a specific course, such as CSSA or CSSP, you must take and pass the associated certification exam. There are sixty (60) questions in the exam and you will have three hours to complete it. The minimum passing score for these exams is eighty percent (80%). For each course, there are two versions of the exam:

- An In-Class Exam
- A Test-Out Exam

For either type, you will need an activation key to access the exam. If you have taken an instructor led course, the instructor will provide you with a key. Otherwise, you can access a test-out exam using a key. These keys can either be purchased online or through your normal distribution channel.

## To access the certification exam:

1. Log into your personal MySonicWall account at <http://www.mySonicWall.com>. If applicable, make sure that this account is based on your work email address
2. Click on My Training in the left navigation pane
3. Locate the exam that you want to access
  - If you have a key, click on the key icon and enter your key
  - If you do not have a key, click on the shopping cart icon to purchase a key online
4. Once you have entered your key, click on Take Exam to start the exam
5. Once you complete the exam, it is scored instantly
  - If you pass the exam, you will be able to view and download your certificate
  - If you did not pass, you will be able to start the test again eight (8) hours after you finished by clicking again on

### Take Exam

NOTE: You can take the exam up to three times, but you cannot enter the key a second time.
